FOR IMMEDIATE RELEASE

Statement from the DC Chapter of The Conservative Caucus

Washington, DC: The DC Chapter of The Conservative Caucus stands firmly behind the efforts of the Trump Administration to rescue and reunite more than 30,000 missing illegal immigrant children who were abandoned, lost, or trafficked under years of the Biden-Harris administration's open-border negligence. What President Trump, Tom Homan, ICE, DHS, and HHS are accomplishing is nothing short of a national miracle, rooted in compassion, law, and accountability. This administration has proven what strong leadership can achieve when the priority is protecting the vulnerable rather than pursuing political power plays.

For Washington, DC, this carries significant weight. As President Trump works to restore the integrity of the federal enclave, safeguarding children and dismantling trafficking and drug networks isn't merely a border issue, it is a public safety imperative for our nation's capital. Fewer traffickers, fewer criminal networks, and fewer dangerous people slipping through the cracks mean a safer, more stable city for everyone who lives, works, and visits here; we applaud the commitment by the Trump administration! These efforts strengthen America, reinforce the rule of law, and reaffirm our obligation to safeguard every child caught in the chaos created by the Biden-Harris border policies.

The DC Conservative Caucus stands ready to support President Trump's initiatives, and we will continue to endorse policies that put children, public safety, and America first!
